Even Fort Detrick Scientists Themselves Think the Killer Anthrax Came from their Facility

Even experts at the U.S. bioweapons facility at Fort Detrick think that [the anthrax which was used in the 2001 attacks came from their facility](#) .

"In an e-mail obtained by FOX News, scientists at Fort Detrick openly discussed how the anthrax powder they were asked to analyze after the attacks was nearly identical to that made by one of their colleagues.

"Then he said he had to look at a lot of samples that the FBI had prepared ... to duplicate the letter material," the e-mail reads. "Then the bombshell. He said that the best duplication of the material was the stuff made by [name redacted]. He said that it was almost exactly the same ... his knees got shaky and he sputtered, 'But I told the General we didn't make spore powder!'"

Indeed, [3 of the 4](#) suspects the FBI is investigating are employees of Fort Detrick, which is run by the Army.

This new information verifies that the anthrax came [from the Fort Detrick military base](#) (confirmed [here](#) .

Some people are pretending that someone unconnected with the army bioweapons facility at Fort Detrick stole the anthrax. However, as the above-quoted article states:

"Fort Detrick is run by the United States Army. It's the most secure biological warfare research center in the United States," a bioterrorism expert told FOX News."

It is not very likely that someone could steal anthrax from the most secure facility in the U.S., run by the Army.

Indeed, the FBI apparently knew in 2002 who mailed the anthrax letters. See [this](#) , [this](#) , and [this](#) .

And yet government investigators and prosecutors have covered up and refused to disclose who did it for 6 years. Initially, the FBI tried to frame an [innocent man for the attacks](#) .

More importantly, "[The FBI has completely shut Congress out of its now five-year investigation into anthrax attacks on Capitol Hill and around the nation](#)" . In other words, Congress -- which legally has every right to know what really happened, and which was the main

victim of the attack -- is being kept in the dark. If the FBI really didn't know who did it, and was really conducting an honest investigation, why would it stonewall Congress?

There is strong evidence that the anthrax attacks were a false flag attack. Indeed, the bioweapons expert who actually drafted the current bioweapons law (the Biological Weapons Anti-Terrorism Act of 1989) while working for President George H.W. Bush has said that [he is convinced the October 2001 anthrax attacks that killed five people were perpetrated and covered up by criminal elements of the U.S. government. The motive: to foment a police state by killing off and intimidating opposition to post-9/11 legislation such as the USA PATRIOT Act and the later Military Commissions Act](#). See also [this](#).

At the very least, the FBI and the White House are actively covering up for the person who really did it.

Alex Jones was joined on air by a leading American professor, practitioner of and expert on international law to discuss his detailed knowledge of the cover up of the 2001 anthrax attacks, which he is adamant were perpetrated by criminal elements of the US government in an attempt to foment a police state by killing off opposition to hardline post 9/11 legislation.

Mesothelioma & Asbestos Cancer

Hazardous asbestos fibers at the WTC exposed more than 110,000 people to the dangerous material; this includes 80,000 tower workers, 30,000 area residents and nearly 4,000 first responders. Asbestos exposure is directly linked to mesothelioma cancer and other asbestos-related diseases.
